

Roll no	Speciality	Name of student	P.G. Teacher
1	Cardiopulmonary	Kruti Desai	Dr. Rajan Modi
2	Rehabilitation	Uma Dobaria	Dr. Trupti Jadeja
3	Rehabilitation	Bhargavi Khatri	Dr Trupti Jadeja
4	Musculoskeletal	nikita manjanwal	Dr.bhavana Gadhvi
5	Musculoskeletal	Krina Mapara	Dr Alpa Purohit
6	Musculoskeletal	Pankti Mehta	Dr. Bhavana Gadhvi
7	Musculoskeletal	Inshiya Motani	Dr Edrish Contractor
8	Musculoskeletal	Shruti Parikh	Dr. Alpa Purohit
9	Cardiopulmonary	Bhoomi patel	Dr. Rajan modi
10	Neurology	Brijal Patel	Dr. Dahara Sharma
11	Musculoskeletal	jahanvi patel	Dr.Alpa Purohit
12	Neurology	Mansi Patel	Dr. Dhara Sharma
13	Neurology	nirali patel	Dr.Fagun Patel
14	Musculoskeletal	Ruchita Patel	Dr Edrish Contractor
15	Neurology	Aanal shah	Dr.Fagun Patel
16	Musculoskeletal	Jeni Shah	Dr. T. Kanna Amarnath
17	Rehabilitation	Khushali Soni	Dr. Trupti Jadeja
18	Cardiopulmonary	Aavruti vyas	Dr. Hardini Prajapati

Title of your study
To study the Correlation between 6Minute Walk Test,2Minute Step Test and Time Up and Go test in evaluating fu
Awareness of Physiotherapy amongst Anganwadi Workers and Community Health Workers - A cross sectional sur
To study the risk of Periphara Arterial Disease in smokers- A cross sectional study
To study the effect of BMI and work experience on foot posture index in nurses- a cross sectional study
A comparative study on Mc Connell taping technique and Positional release therapy on pain and functional disabi
Prevalence of musculoskeletal disorder and postural harm in females working in food factories- a cross sectional s
To compare the effect of psychological distress on musculoskeletal disorders amongst nurses.
To study the effect of running at place on lumbar stability in office workers.
To study the effect of body position on pulmonary function in post coronary artery bypass graft individuals.
Effect of Cold Versus Electrical Stimulation on spastic planta flexors muscles in cerebral palsy patients - An Experin
A comparative study on myoficial release therapy and positional release therapy on pain and functional disability
To study the efficacy of Mini-BESTest and Berg Balance Scale in stroke patients - An obeservational cross sectional
To study NCV of median, ulnar and radial nerve in mobile phone users.
To compare the effect of 1/2 and 1/3 oflumbar traction in pain and physical function among lumbar radiculopathy
An analysis of memory retrival in performance of exercise in type 2 diabites patients.
To study the effects of pilates on lumbopelvic stability and flexibility in young adults : An experimental study
To study the effect of Organophosphrous pesticides exposure on nerve conduction velocity in farmers.
Effect of Blow bottel positive expiratory pressure on pulmonary functions in patients underwent median sternoto

functional capacity among hypertensive older individual- A cross sectional study

ility in person with unilateral upper trapezius myofascial trigger point.
